Try some of these and see what you like.

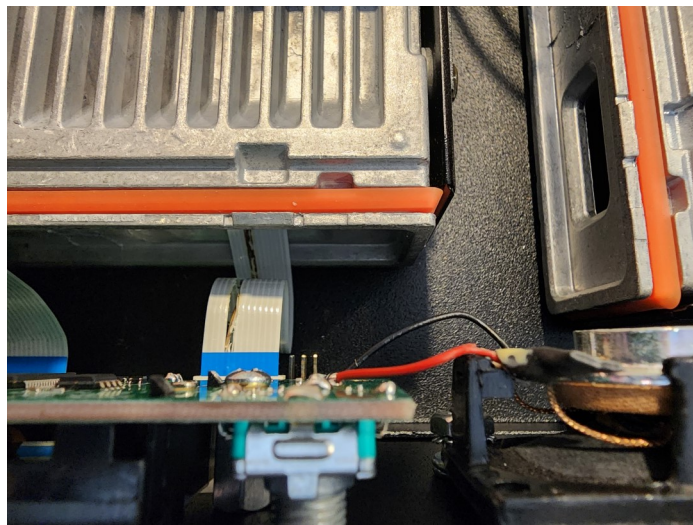

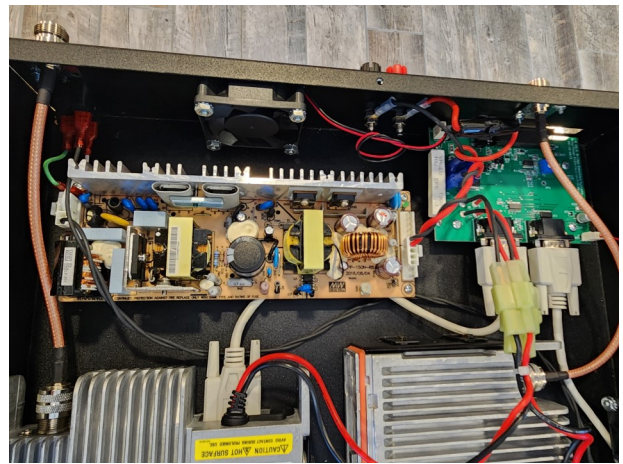

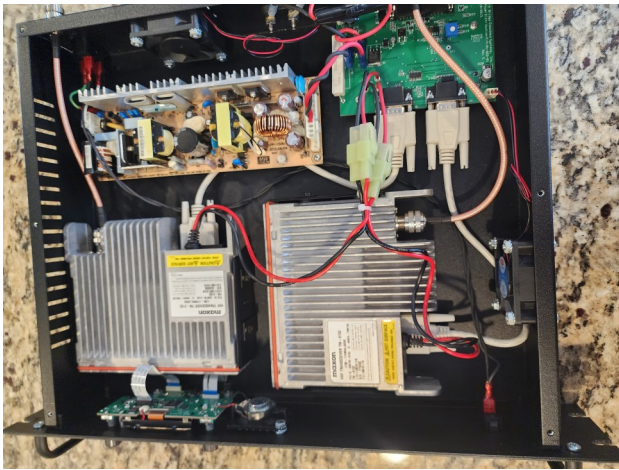

Inside a Repeater

As most of you know we have had some issues with repeaters lately. I thought you might like to see what is inside one of these.

Basically 2 radios a interface board and a power supply.

The bottom picture shows the ribbon cable that got burned in the power surge. The surge went through the radio to this cable that feeds the front display. So most likely this radio is bad along with the cable.

We may be able to use some other parts in the future.

June Minutes

The meeting was called to order at 7pm. The Pledge was said and introductions made. The treasurers and Secretary report were read and approved.

The new repeaters has been received and as of Tuesday night Paid for. Thanks to all the help from the AA4HP Radio Sport Club.

We had borrowed a repeater from PCARS and it has been offered for purchase as a backup repeater for \$750.00, this was voted on and approved the purchase.

It was discussed that the club would like to build a HEX beam antenna. Marty KJ4LQX let us use his at field day and has agreed to head up a group in building one for the club.

Marty also did a discussion on Electronic Logging. This is used for general use or during contesting. Very informative .
